

To whom it may Concern,

I have been practicing dental hygiene for 7 years and through those seven years I have learned a lot. When I first got out of school I said I would never want to administer anesthesia, but as my experience grew I realized that being able to do so would only benefit the patient as a means of being more comfortable. Also a change in supervision would be wonderful for everyone involved. We are all well trained professionals who would love more flexibility and freedom. Please consider these regulation changes in order for us to better serve the dental community.

Thank You,

*Krislyn Monagan*
