Dear Mr. Grovich,

As a student dental hygienists I am in full support of the proposed changes. Although I am currently in the learning process, I believe with the proper education and knowledge we would be fully capable of completing tasks such as administering anesthesia and taking radiographs without direct supervision effectively and efficiently. I believe determining a level of supervision that would allow the dental hygienist to work more independently would be a great benefit to all patients. I believe with the proposed changes dental hygienists would be able to offer a higher level of care to all of their patients.

Lindsay Field, SDH
