

2720

Dear Mr. Grovich,

I am writing this letter to express my total agreement with all of the proposed changes to the dental hygiene regulations. I feel that all of these changes will make it possible for us as dental hygienists to provide care to more people in need of services. The changes will have positive effects in the dental community and will greatly benefit our patients. All of the proposed changes should be accepted and put into effect as soon as possible.

Thank You,

Erica Van Pelt SDH
