Harrisburg, PA 17105-2649

Dear Mr. Grovich,

As a practicing registered dental hygienist for the past fifteen years and a dental hygiene educator, I am thrilled to see the proposed regulations changes regarding anesthesia and the position of public health dental hygiene practitioners. The Commonwealth of Pennsylvania can only benefit from the revision and addition of these changes. As a long-time member of the Pennsylvania Dental Hygienist's Association, I concur with their comments as submitted and anxiously await a timely resolution of these and all responses received. Thank-you for the opportunity to address these long-awaited issues,

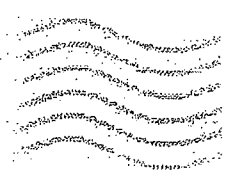

Megan Brightbill
