Subject: regulations

I highly commend you for the changes to the Dental Hygiene regulations. I also commend you on the trust you are putting in Hygienists across the state. We are licensed and I must tell you our licensure was extremely difficult and we have extreme competence in our field. Our instructors were not lenient whatsoever and you truly earned the grade you got. I was 40 when I graduated from Northampton Community College and I assure you they truly taught dental hygiene.

Sincerely,

Susan Lutz
