Dear Ann

I had the pleasure to be at the State College Nurse Practitioners Conference last week...

I am a Certified Hypnotherapist hired by Joseph Marra CRNP.

He has a group of Nurse Practitioners working for him to provide the general public a broader approach to their own care by providing them with an Urgent Care Center

I am honored to work in this atmosphere leading us into the future of a more Compassionate Approach, what Nurses are so noted for...

I would like to see as others, this Descriptive Authority released to give these practitioners more freedom to give care to their patients...
