November 11, 2008

Dear Sua Madam,

I am writing on behalf of my nurse practitioner. She is so thorough with my care & explaining my prescriptions & any procedures.

She is unable to prescribe narcotics for an extended period of time. This really impedes her care to prescribe for longer than 72 hours for Schedule II & 30 days for schedule III & IV.

Can you please assist in extending these privileges & change the CNP regulations that came out on Nov 8<sup>th</sup>? This will break the barriers that block access to care for myself & my family.
