To Whom It May Concern

The proposed changes of CRNP rules and reqs are good. My partner has a CRNP who sees to her needs. We depend on her for prescriptions and medical care. We wouldn't change our CRNP for a MD infact we moved to new clinic when our CRNP moved just so she could continue care. We depend on our CRNP and with the changes she will be able to help us and others a lot easier. My partner has bi-polar and with our CRNP's help she is now regulated with her medication. We are a team working to keep safe.

Thank you
