Ann Steffenie,

I am writing the letter in support of Nurse Practitioners all over the State.

Penngsylvania is dotted with small towns all over the state and a lot of them have invested in medical clinics, but in most cases this day in age doctors will not staff them on a regular basis, so thank God we have nurse practitioners to fill in.

In my field, as in a lot of others, Nurse practitioners don't dispense all of the drugs that we need, so we have to travel quite a distance to a doctor who is not real handy with our local history and it is very costly.

Please give Nurse Practitioners the love
