INDEPENDENT REGULATORY  
REVIEW COMMISSION

Dear Ms Stefanic,

I am a first year student at the Penn State University College of Medicine in Hershey. I am also a patient of a nurse practitioner. I am offering my support for the proposed regulatory changes that enables my nurse practitioner to meet the needs of all her patients. The current regulations limiting her ability to prescribe some medications do not make sense given her capabilities. When I have completed my education, I will be happy to practice with a nurse practitioner. I believe diverse preparation in health care providers will make a healthier health care system.

Sincerely,

[Redacted Signature]
