Subject: CRNP regulation

Dear Mr. Arthur Coccodrilli, Chairman,
Independent Regulatory Review Commission
333 Market St.,
Harrisburg, PA 17101

- Please do not change the current definition of the collaborative agreement
- Require written, not oral, collaborative agreements
- Continue to limit the number of CRNPs a physician may supervise to four
- Only allow CRNPs to prescribe drugs with which their collaborating physician is familiar
- Continue limits on CRNP prescribing of controlled substances
- Spell out what "CRNP" means on a name badge
- Notify patients when they are being seen by a CRNP

Thanks you for your support

Karen Abrams M.D.
