**Subject:** Continuing Education Credits - Out of State

Board of Professional Engineering,

I am aware and applaud the efforts the State of Pennsylvania are taking for Continuing Education Credits. Living in Texas, I would recommend that Engineering classes at Accredited Universities, or short courses at Professional National Conferences be pre-approved. It will be quite expensive to hold on to my license if I need to pay for each course approval process. Being a native Pennsylvanian and having all my family in Pennsylvania, I am proud of PA is where I received my first PE license and I wish to have the license remain active.

Best regards,

**Christopher Dorang, P.E.\***
