**To:** ST, ENGINEER

**Subject:** Proposed Continuing Education Requirements

Dear Board;

I hope you will rethink your proposed requirements for continuing education CE requirements prior to finalization

If I read them correctly as contained in the Summer newsletter, they do not allow for management courses or meetings to count

As PEs advance in their career, they eventually assume management positions and therefore concentrate more on this area than a technical area. Yet they are still expected to be aware of the technical requirements for the persons in their group and are expected to be able to seal documents as required

Also, much technical information is disseminated by various vendors through lunch and learn sessions. These are very useful in keeping engineers aware of new technologies emerging in the marketplace.

The current wording seems to prohibit this venue as well.

Should you have any questions, do not hesitate to call

Sincerely,

Robert G Kurilla PE, PMP  
Project Engineering Manager
