Subject: Continuing Education Provider

Dear Sir,

I am submitting a request for approval to become a continuing education provider. Our Engineering Continuing Program has over ninety courses on DVDs on topics for engineers and surveyors to take and earn continuing education credits (CEUs) to meet their licensing renewal requirements. This program is part of the Samuel Ginn College of Engineering at Auburn University and has been providing courses for more than fifteen years. These courses are accepted by over 35 state boards.

It is my understanding that your licensed engineers and land surveyors will be required to complete 24 hours of continuing education during the period of September 1, 2009 through August 31, 2011. I would like for our program and courses to be listed on your pre-approved courses/providers. I will be happy to provide any information or complete an application. I invite you to visit our website at www.engce.auburn.edu. I appreciate your guidance.
