RE: Comment on proposed Chapter 302 - Operators' Certification

Gentlemen:

Section 302.1202(b) requires the system owner to submit of an annual report to the Department regarding the system operators. It doesn't state where the report is to be submitted or when. Since wastewater treatment plant owners already have to submit an Annual Wasteload Management Report required by Chapter 94, why couldn't the information requested in 302.1202(b) be included in this report rather than requiring a separate report?

Sincerely,

Arthur E. Hall, P.E., BCEE
