Subject: Regulation 2777

Message:

My family and I are raw milk consumers for reasons of both health and flavor. I strongly support direct farm/consumer relationships and I respectfully request that you reject proposed regulation 2777 Department of Agriculture 2-160; Milk Sanitation. I recognize the reasons for certain kinds of restrictions when large markets and corporations are involved but direct sales are very different. When producer and client know and understand one another they should not be controlled under the same laws. A sloppy and irresponsible producer would go quickly out of business but a conscientious one can provide a far healthier product than anything found in a distant grocery store. Please don't endanger My milk supply! Cindy Frazier
