Subject: Proposed raw milk regulations

RECEIVED
IRRC

I am writing to urge the PDA committee to vote against the proposed regulations #2777, 2-160 that are coming up for a vote on October 5.

I am a raw milk consumer and activist in Ohio and do not want PA to set a bad example for the rest of the country.

Both my parents were born and lived much of their lives in eastern PA. They lived to be 93 and 105 years and I fully suspect they were raised in the first decade of the last century on raw milk and raw butter. My parents were born in Wyomissing and Shillington PA and passed away in Allentown. I personally purchased raw milk in Allentown while visiting there.

Thankyou,

Edward Fritz
