Independent Regulatory Review Commission (IRRC)
333 Market Street, 14th floor
Harrisburg, PA 17101

I am writing to request that the Pennsylvania Department of Agriculture withdraw the proposed "final" regulations in advance of the October 7 meeting of the IRRC so that no action may be taken thereon at that time.

Additionally I request that, in the event PDA does not withdraw the proposed regulations, the IRRC take action to reject them as currently drafted.

Dairy farmers, consumers and customers of dairy farmers have not had adequate time to understand the proposed Milk Sanitation Regulations. Indeed, many - most - do not even know about the proposed regulations. Kindly allow for more time for an informed public, an informed customer and informed farmers before there is any action taken on the proposed regulations.

Sincerely yours,
GerneyLee (Gernilee) Carter
