**Subject:** Proposed Regulation 2777 Department of Agriculture 2-160

RECEIVED  
IRRC

2010 OCT -4 P 3:12

Dear Members of the IRRC: please vote to disapprove proposed regulation 2777 promulgated by the Department of Agriculture. I and my family drink raw milk and make yogurt and use the cream from it for our own consumption. I regard it as the healthiest food we consume. Our 7 year old daughter's health is admired by everybody who comes into contact with her. She is vigorous, happy and just plain bright. I attribute that to her diet.

We buy our milk locally and it is produced by Swiss Villa Farm, a Pennsylvania farm near Lykens. We are pleased to pay at least twice the price of pasteurized milk for such a wholesome product. We know several dairy farmers who have or are going out of business because the price they receive for their milk by the diaries.

Please disapprove the proposed regulation. Thank you. John A. Hiscott, Esq. RR1, Box 1376, Stroudsburg, Pa. 18360. 570 402 0317.
