TO Whom it may Concern,

I, Alice Gust, am a raw milk consumer. I am very much opposed to the regulations that are in #2777 mentioned above.

The proposed regulations will quite possibly force many if not most raw milk producers out of business. This is unnecessary .... we do not need protection from small farmers. If we do not like their product we do not have to buy it. The last thing we need is another business forced out because of government regulations.

Large corporate farms are an entirely different matter...focus on them.

Raw milk has been very beneficial to myself and my family. I would be very disappointed if it was regulated away.

Thank you for your time and consideration.

Alice Gust
