My name is Amanda Smith, I am a raw milk consumer. I urge that you reject proposed regulation #2777 Department of Agriculture 2-160: Milk Sanitation. I am an adult capable of handling my own transactions. I do not need protection from my local farmer. if I have a problem or concern with any milk product I am able enough to confront the producer myself.

I ask that the regulation be confined to large corporate operations, in which the consumer does not have a direct relationship. Sanitation problems in these operations would be more wide spread and devastating. Problems of sanitation in small operations would affect few and ultimately put them out of business.

Signed, Amanda Smith
