**Subject:** KEEP RAW MILK LEGAL PLEASE

Please do not make buying raw milk illegal. Local family farms are very careful about how they care for their animals and do not have the same issues with disease like large huge factory farms. Raw milk (from responsible farms) is how nature intended milk to be drunk. I have been giving my young son raw milk for some time now & we have never experienced any problems. I am also concerned about the livelihood of local farmers who take care of their animals properly. I do not want them to be penalized for doing the right thing.

Your time would be better spent enacting legislation that made factory farms provide better living conditions for their animals and producing better products for Pennsylvanians.

My husband & I are college educated voters and have carefully made the decision to consume raw milk. Please do not allow the irresponsible practices of large factory farms affect responsible family owned farms.

Sincerely,

Amy W Risinger
