Dear Sir or Madam,

I am writing to ask you to vote to disapprove proposed regulation #2777 Department of Agriculture 2-160. I believe that raw milk is a good thing; I have been using it for 9 years and have given it to my family with no deleterious effects. I know that the small farmers already practice very good hygiene; if not, they would be out of business. Furthermore, I believe in the intelligence and common sense of the ordinary person, and in the free market economy. Farmers don't need further regulation to make sure their milk supply is safe; the laws currently in existence are sufficient for that. So please don't let proposed regulation #2777 DoA 2-160 pass -- it would put unnecessary hardships on the small farmers and drive many of them out of business.

Sincerely,  
Ann Lund
