**Subject:** thank you for your critical support!

Hello!

Thank you for your work to keep Pennsylvania a model state for strengthening small farmers.

When you meet today for discussion on the new regulations, I ask that you DISAPPROVE proposed regulation #2777 Department of Agriculture 2-160.

The rules are not necessary for hygiene and sanitation. They simply require expensive farm modifications without providing any funding to make them.

Your work impacts every state in the U.S. Thank you for voting wisely!
