Subject: Please reject #2777 regulation

Greetings to you! My name is Breanne Pettigrew, and I live in Pleasant Gap, PA. I am an ardent supporter of locally provided raw milk, and I'm requesting that you reject proposed regulation #2777 Dept. of Agriculture 2-160: Milk Sanitation. I believe that further state regulation of milk provided by my local farmers and stores would greatly hinder their ability to provide milk for families such as mine. I am a conscientious consumer, and do not need the sort of "protection" that your regulations imply. Please reject this legislation, and allow my local farmers and stores to carry the responsibility for providing high sanitary performance.

Thanks so much for your time!

Respectfully,

Breanne Pettigrew
Pleasant Gap, PA
