Subject: plea to reject regulation #2777 Dept of Agriculture 2-160: Milk Sanitation

INDEPENDENT REGULATORY
REVIEW COMMISSION

Hello,

I am Carissa Gallo and I am a raw milk consumer and I would like to request that you reject proposed regulation #2777 Department of Agriculture 2-160: Milk Sanitation. I am a knowledgeable and discriminating consumer and do not need protection from my farmer-neighbor of local store. I am interested in their benefit and my and my families health, which is why I choose to drink raw milk. State regulation does not and cannot provide a higher level of policing. I am much more concerned with the ramifications of consuming products from larger corporations that do not get the same level of intimate care and observation over what they are producing.

Although some regulations on this latter group are necessary, the regulation could be much simpler if they were performance standards, requiring that the end product achieves a desired result. How that result is achieved is the producers' responsibility, no the State's.

Thank You,
Carissa
