Subject: I need raw milk

Message:

I, Carrie Newcome, am a raw milk consumer and respectfully request that you reject proposed regulation # 2777 Department of Agriculture 2-160: Milk Sanitation. These regulations are unnecessary: - My son and I have been drinking raw milk for many years without any incident. - The farmer-consumer relationship inherently ensures safety because the farmer would lose their customers and go out of business if they made anybody sick. These regulations will put more family farms out of business by requiring the farmer to make significant further expenditures. - This will be bad for the economy, and - I will likely lose my raw milk, which enabled my son to heal from tenacious intestinal disease. PLEASE LET ME CONTINUE TO GET RAW MILK.
