Hi!

I do not live in Pennsylvania but I am asking you to please, vote to DISAPPROVE the proposed regulation #2777 Department of Agriculture 2-160.

I was raised on raw milk and still like raw milk because of the superior nutritive value that it contains. I buy it whenever possible. I care about this issue because Pennsylvania is a model raw milk state for the rest of the nation and what happens in Pennsylvania could eventually impact other states.

Sincerely,

Denise Beaulieu
