Dear Sir/Madame:

I want you to know that I am a raw milk advocate in New Hampshire and I oppose and disapprove of the proposed regulation #2777 Department of Agriculture 2-160. My wife, children and I lived in Bellefonte PA while I was a PhD grad student at Penn State University. I love your state very much. However, please, do not make raw milk sales and consumption a problem to the freedom we enjoy to consume as we like and prefer. I and my family have never had health issues related to our daily consumption of raw milk. Moreover, we have been very healthy and therefore were never a burden to the Commonwealth of PA with regard to health coverage.

Thank you for reading my strong opposition. Do not restrict the sales and consumption of raw milk!

Dennis W Eaton
