Subject: Regulation 2777 Drpt. of Agriculture

Dear Sirs,

I respectfully request as a resident of the Commonwealth that you oppose and vote against Regulation 2777 Department of Agriculture.

I have been a consumer of raw dairy products for years and have never suffered any ill effects from these products. As a matter of fact it is my belief that these raw dairy products are far superior to the industrially produced dairy products which are widely distributed to consumers.

I will look forward to seeing your vote on this critical public health issue.

Respectfully,

Dr. Douglas G. Pfeiffer
