**Subject:** Please Reject Regulation #2777 Department of Agriculture 2-160: Milk Sanitation

INDEPENDENT REGULATORY  
REVIEW COMMISSION

Hello,

My name is Gerard Olson and I request that you reject regulation #2777 Department of Agriculture 2-160: Milk Sanitation.

My family and I have been raw milk consumers for many years now and have great relationships with local farms in our area.

We do not feel there is a need for any regulation in this area. If the producers we purchase from, sell an inferior product, they will soon be out of business. These farms are small and close enough, that we can visit their sites and see their production. We feel extremely comfortable with the conditions in which they produce milk (it seems much cleaner and safer than what I've seen of very large conventional milk dairies).

We do not feel that it is the state's place to put regulations here.

If you would like to discuss this issue further with me, please email or call 215 407 4749, as this issue is very important to my family and I.

Thank You,  
Gerard Olson
