Subject: DISAPPROVE

To Whom It May Concern:

I oppose the proposed the milk regulations and request that your committee please vote to DISAPPROVE proposed regulation #2777 Department of Agriculture 2-160. I think it's short sighted and will only hurt the groundswell of independent agriculture not only in the state of Pennsylvania, but in our country. Independent farmers are the heart of our country and are once again becoming a valuable contribution to our localized, post-recession economy. Raw milk farmers are as valuable an asset to Pennsylvania culture as the Amish, cheesesteak subs and Hershey. Regulating them now at this pivotal point in history would only homogenize Pennsylvania's culture and lay waste to a thriving movement in agriculture.

Sincerely,

Graham Dodge
