Subject: oppose regulation #2777

I am 80 and live in Los Angeles. I buy whole raw milk every week and I hope I can go on doing that. I grew up in Denmark on raw milk, partly because I had a sever case of hepatitis at age 11 and our doctor suggested we go to the local farmer to get the milk straight from the cow. It helped me get my strength back.

Don't hurt the samll farmers that do so much good while companies like Monsanto and Archer Daniels Midland do so much harm and never are punished.
