Subject: unnecessary and onerous regulation

Re: proposed regulation #2777 Department of Agriculture 2-160: Milk Sanitation.

Please vote down the unnecessary and burdensome regulation contained in this proposed regulation. My name is Jamie McEwan. I a college-educated writer, having published six children books and many dozens of magazine articles; a Yale graduate; an Olympic bronze medalist; and a raw milk consumer. I am a supporter of small farms, and object strongly to any regulation that creates an unnecessary burden on my local friends and neighbors.

Sincerely,
Jamie McEwan
