Subject: Milk Regulation

Message:

I respectfully request that you reject the proposed regulation #2777 Department of Agriculture 2-160: Milk Sanitation. I am intelligent and discriminating enough to to make those choices for myself. I do not need protection from the local people I where I buy my supplies. If they are unsatisfactory I will stop buying from them. Where I might need regulations are with the large companies and suppliers where I have no contact. After my third bout with cancer I made the choice to consume raw milk,organic fruits,vegetables and other things I decided were better for my well being. Please reject this unnecessary and excessive regulation. Thank you, June Shepherd
