Subject: Milk regulations

I oppose milk regulation # 2777, Dept of Ag 2-160

We need raw milk in all states to be available for those who want it. I grew up on raw milk and continue to drink it, as did my parents, grand parents and so on. . Everyone should have the freedom to obtain it.

In addition, it brings income to small farmers who feed cows grass, their proper diet. and contributes to the health and tax base in the state.

At a time when there is great demand for local food, lets not put these people out of business. The state of our health demands we have access to raw foods.

Your state is an example to us all.
