Subject: raw milk

I live in Colorado and have enjoyed raw milk for the last 4 years and for the last 2 have milked my own goats. I strongly oppose the regulation of raw milk and think that the proposed regulation #2777, Dept of Agriculture 2-160, should be disapproved. People should not have to jump through hoops to obtain nutrient dense, healthful food. I think it is sad that the government doesn't think that it's citizens have the sense to make a basic decision as to whether a food is safe to eat or drink. Raw milk is a very small scale industry and is well monitored by the farmers and the people who choose to drink it. Keep you fingers out of peoples milk and we will all be healthier and happier. Try saving people from unhealthy habits like cigarettes. Oh yeah. They have the right to choose how they kill themselves.

Hmmmm!
