Subject: Raw Milk Regulation

Message:

My name is Jessica Dixon and I am a raw milk consumer. I request that you reject the proposed regulation #2777 Department of Agriculture 2-160: Milk Sanitation. I am well educated and discriminating consumer, so I do not need protection from my farmer-neighbor or local market or store. I encourage you to allow me the freedom to make my decisions in this regard. Where we need government involvement is where the suppliers or markets are no longer our neighbors but rather corporations created by the State. Food safety is not size neutral. Larger operations are more complex and their problems have far-reaching impacts with which we have no direct meaningful recourse for correction. The regulation needs to focus on those operations. Again, I view the proposed regulation as excessive, and unnecessary. I strongly urge you to reject the proposed regulation.
