I am a raw milk activist in Kansas. I was disheartened to hear of pending legislation that would impair the ability of small dairy farmers to make a living in Pennsylvania. Our health has been greatly affected for good by free access to raw milk. Every restriction of food freedom in other states negatively affects my state. Please vote to DISAPPROVE proposed regulation #2777 Department of Agriculture 2-160.

You may view the selling of raw milk as a threat to the financial well-being of your corporate dairy farms, but we see it as a great personal benefit to the people of your state. Please protect the people's rights and well-being rather than a few corporations ability to get rich.
