Please vote DISSAPROVE on proposed regulation #2777 Department of Agriculture 2-160.

I am a raw milk activist in Alabama and I am concerned about the vote because PA is a model raw milk state for the rest of the nation and what happens in PA could eventually impact other states.

While I do not get raw milk from PA, I am concerned because I buy raw milk cheese (legally sold when aged 60 days or more) and pasture fed meat and eggs from a number of PA farmers that sell raw milk in PA, and I know that the proposed law will put many of them out of business.

Sincerely, John Cameron
