i disapprove this new law you trying to pass about raw milk .. are you serious .. there is no way to appove a bill like this without doing research about why raw milk is good .. of course u want to make money off of the dairy farmers but u need to give the consumer an option .. I'm a nutritional consultant and have helped many people's heath by letting them know about the dangers of homoganized fats ... its a major concern ,, u need to research this much more than u have .
