Subject: PENNSYLVANIA RAW MILK REGULATIONS

My name is Joseph Heckman, Ph.D. and I drink raw milk. I am writing to urge you to reject proposed regulation #2777 Department of Agriculture 2-160: Milk Sanitation. This regulation is unnecessary for raw milk producers that participate in direct farm to consumer marketing. I place more confidence in good farmer to consumer relationships than I do in any government regulation. Once again, I urge you to reject the proposed regulation.

Sincerely,
Joseph Heckman, Ph.D.
