To IRRC:

I urge you to Please DISSAPROVE of the PDA proposed regulation #2777 Department of Agriculture 2-160. With 136 licensed raw dairy farms and many more pending applications , Pennsylvania needs to protect these wonderful providers of Healthy Food not regulate them out of business. These are small business that need to be encouraged not buried in regulations. There are already quite enough regulations to cove raw milk farms. I live in Ohio, your next door neighbor. What you do affects us very much. Be our beacon of the path to the right to choose health. Be informed of the huge differences in nutrition between highly processed, over cooked, homogenized milk and real milk. This legislation is flawed and need to be rejected.

Thank you for considering my request.
