Subject: Reg. 2777 Milk sanitation

Message:

My name is Katherine Scott. I am a raw milk consumer and I respectfully request that you REJECT proposed regulation #2777 Department of Agriculture 2-160: Milk Sanitation. I do not need protection from my farmer-neighbor or local market. Although some regulations on this latter group are necessary, the regulation could be much simpler if they were performance standards, requiring that the end product achieves a desired result. How that result is achieved is the producers' responsibility, not the State's. That would result in the State's role being to test for compliance, a function that could easily be contracted out. Again, I view the proposed regulation as excessive, and in some cases onerous and unnecessary. These flaws warrant that the proposed regulation be rejected. Sincerely, Mrs. Scott
