To whom it may concern: Being that I am a raw milk advocate, I highly value the fact the our neighboring state Pa is the model state for raw milk users. It has come to my attention that the PDA has proposed dairy regulations that would severely impact the ability of raw milk farmers to earn a living.

I oppose the proposed milk regulations and ask that you vote to dissapprove "Proposed regulation # 2777 Department of Agriculture 2-160.

Pennsylvania is Americas raw milk dairyland and if this is passed, it will negataively affect other states as well.

Thank you so much for voting to Dissapprove the proposed regulation!

Have a great day!
