**Subject:** Reject #2777 Department of Agriculture 2-160

**Message:**

Please reject the proposed regulation on milk sanitation. It is true that milk processing facilities and transporters should be required to meet health and sanitation standards, but the proposed regulations put an unnecessary burden on small family dairies, and may drive good farms out of business. As worded, the proposed regulation discriminates against smaller farms and dairies. Please do not pass it. Respectfully, Kesa Koresko 17109 Flatwood Drive, Derwood MD 20855 301-740-1572
