Dear sir/madam at the IRCC

I am very disturbed to hear of the upcoming voting out of the raw milk in Pa.

I was brought up on raw milk and have raised my daughter on it since she was weaned at 8 months old - she is now an incredibly strong and active 3 year old.

I very much would want the choice to remain available for me and my family to acquire raw milk. I therefore request that you vote to **DISAPPROVE** the "proposed regulation #2777 Dept. of Agriculture 2-160".

thank you for your time  
Regards
