Subject: Proposed regulation #2777

I live in Florida and Georgia and have been able to purchase and consume raw milk, raw yogurt, raw kefir and whey for the past 7 years. Our dairy farmers sell their products as "pet food" since that is the only way to legally sell raw milk. We know our farmers, see them on a weekly basis and have the privilege of enjoying good health and good dairy products as a result of their hard work. Our family opposes the proposed regulation and request that you vote to DISAPPROVE "proposed regulation #2777 Department of Agriculture 2-160."

Thank you for your work in Pennsylvania - it's one of our favorite places to visit in the summertime.
