Subject: proposed regulation # 2777

Dear Commission Members:

I am a raw milk consumer from a state that looks to Pennsylvania as an excellent model for allowing raw milk accessibility to its citizens. My state, MN is making it increasingly difficult to easily access the raw milk that I choose to consume. If you choose to adopt the proposed regulation, # 2777 Department of Agriculture 2-160: Milk Sanitation, you will make raw milk less accessible to your citizens and set a restrictive example for other states to follow. I urge you to reject this proposed regulation.

Thank-you.

Mary Radtke
