Subject: Regulation #2777

Hello,

My name is Michelle Lancaster and I am a consumer of raw milk and I am asking that you oppose regulation #2777. As a free person in these United States, I believe it is up to me as an individual to know who and what I am purchasing. If I want to buy raw milk, that is my decision. If my local farmer is selling a harmful or inferior product he will be out of business.

If you are going to regulate anyone, I would start with the large factory farms, they are the farms that cause the most harm because they sell to more people. Why put all of these extra burdens on smaller farms?

Again, I ask that you reject regulation #2777.

Sincerely,
Michelle Lancaster
